

# FOLLETT SOFTWARE MAKES DIGITAL CONTENT WORK FOR YOU

## ABC-CLIO

### Engage Your 21st Century Learners

Digital Content Solutions from Follett Software will make digital content work for your school or district. We cut through the clutter and confusion surrounding digital content to provide only the best content from the top educational providers, and we continually review that content to ensure it remains reliable and relevant.

Not only do we help you access the right content, but we also give you the tools to manage that content so that you know it's being used effectively to create active, personalized learning experiences for students – and help you realize the potential for learning that digital content provides.

### Your Digital Partner for Academic Success

Follett Software is the partner that over 60,000 schools trust to manage their educational resources. Our software solutions impact students and educators around the world on a daily basis.

We're partnering with ABC-CLIO and other leading digital content providers to help schools make the most of their educational resource investment.

Resources from these leading education content providers are accessible within Destiny® Library Manager™ and Aspen™ Curriculum and Learning™. Your students and educators will experience integrated searching of quality content, maximizing your investments and promoting greater usage.

## ABC CLIO

### ABC-CLIO Solutions:

- Align to State and Common Core standards
- Include vetted, authoritative content
- Improve teaching effectiveness
- Support 21st century learning
- Save time for students, teachers and librarians
- Feature outstanding integration and support

## Follett Software and ABC-CLIO are excited to offer you online curriculum resources

ABC-CLIO integrates three essential resources into each one of its online databases for middle and high school students. These three components distinguish ABC-CLIO Solutions, making them the ideal answer for effective integration of your library into the classroom curriculum.

The logo for ABC-CLIO is displayed within a red-bordered box. The text "ABC" is in a dark purple serif font, followed by a circular icon containing a stylized globe with green and blue segments, and then "CLIO" in the same dark purple serif font.

### A Textbook

Students are connected to a standards-based curriculum that is continually updated:

- Correlates to Common Core and State Standards
- Correlates to major textbooks
- Each core concept includes activities and discussion questions to promote more complete understanding
- All topics link to a rich set of resources that encourage further learning

### A Library

An extremely comprehensive and fully integrated, topic-specific reference library filled with authoritative, award-winning content that is available to student researchers anytime, anywhere:

- 150,000 reference entries
- 80,000 primary sources
- Documents, audio, video, maps, images, facts, figures, timelines and glossaries
- Reference content annotated with full citations in APA, Chicago, and MLA styles

### Perspectives

Unique to ABC-CLIO, this deep collection of model commentaries exposes students to a variety of perspectives, helping them develop critical thinking skills and write informed essays:

- Over 500 carefully crafted perspectives with background, key questions, and primary documents
- Demonstrates how to evaluate decisions, interrogate data, analyze primaries, and interpret events
- Models a variety of methods for supporting arguments
- "Ask the Cybrarian" feature offers additional help to students doing research
